International Journal of Fracture

CONTENTS OF VOLUME 55 (1992)

Vol. 55, No. 1, 1 May 1992

An integral-equation solution for cracked half-planes bonded together and containing debondings along their interface	E.E. THEOTOKOGLOU and G. TSAMASPHYROS	1
Dual boundary element analysis of cracked plates: singularity subtraction technique	A. PORTELA, M.H. ALIABADI and D.P. ROOKE	17
Analysis of a wavy crack in sandwich specimens	A.R. AKISANYA and N.A. FLECK	29
Process region changes for rapidly propagating cracks	E. JOHNSON	47
Work-of-fracture of brittle materials with microcracking and crack bridging	M. SAKAI and H. ICHIKAWA	65
Influence of crack closure on the stress intensity factor in bending plates – a classical plate solution	M.J. YOUNG and C.T. SUN	81

Vol. 55, No. 2, 15 May 1992

The interfacial fracture characteristics of bimaterial and sandwich blister specimens	K.M. LIECHTI and Y.-M. LIANG	95
An anisotropic model of damage mechanics based on endochronic theory of plasticity	C.L. CHOW and X.F. CHEN	115
The kinked interface crack	J. HEITZER	131
Analyses of infinite pairs of surface cracks in elastic plates	W. ZHAO	143
Asymptotic analysis of a cohesive crack: 1. Theoretical background	J. PLANAS and M. ELICES	153
Probabilistic fracture mechanics of 2D carbon–carbon composites	A. MOET, I. MOSTAFA, A. CHUDNOVSKY and B. KUNIN	179

Vol. 55, No. 3, 1 June 1992

Numerical simulations of SHPB experiments for the dynamic compressive strength and failure of ceramics	C.E. ANDERSON, Jr., P.E. O'DONOGHUE, J. LANKFORD and J.D. WALKER	193
An energy analysis of crack initiation and arrest in epoxy	A. CHUDNOVSKY, A. KIM and C.P. BOSNYAK	209
Elastic anisotropy and micro-damage processes in polycrystalline ice. Part I: Theoretical formulation	M.S. WU and S. SHYAM SUNDER	223
Some reverse mappings in 3-D crack and dislocation problems	Z. YONG and M.T. HANSON	245
The interface crack in a tension field: an eigenvalue problem for the gap	A.K. GAUTESEN	261
Determination of K_{Id} at or below NDTT using instrumented drop-weight testing	P.R. SREENIVASAN, S.K. RAY, S.L. MANNAN and P. RODRIGUEZ	273
Effect of crack front non-linearity on results from compact tension tests	R. KAN and W.S. BLACKBURN	285

Vol. 55, No. 4, 15 June 1992

Transition elements matching the near crack-tip strain field	DING HAOJIANG and HE WENJUN	293
Some guidelines for a consistent use of the Weibull statistics with ceramic fibres	J.J. MASSON and E. BOURGAIN	303
A stochastic damage model for the rupture prediction of a multi-phase solid. Part I: Parametric studies	Y.J. LUA, W.K. LIU and T. BELYTSCHKO	321
A stochastic damage model for the rupture prediction of a multi-phase solid. Part II: Statistical approach	Y.J. LUA, W.K. LIU and T. BELYTSCHKO	341
An elastic–plastic finite element analysis of a blunting interface crack with microvoid damage	S. AOKI, K. KISHIMOTO and N. TAKEUCHI	363
Elastic anisotropy and micro-damage processes in polycrystalline ice. Part II: Numerical simulations	M.S. WU and S. SHYAM SUNDER	375
